

Satellite radio from XM is an awesome form of entertainment and news. I listen to all there stations. Please reject the NAB's petition 04-160. It is amazing what my tax dollars pay for. The NAB's court time. Why doesn't the government attack real issues like Gas Prices, and concentrate more on how to support their President instead of worrying about and petitioning over whether or not satellite radio can air traffic and news. Just another form of control, trying to keep their salaries from going down ey? Please tell "CHIP" and "Gene" to worry about real issues. Stop waisting the tax payers dollars. If you can't do the job you were unfortunately elected to do, QUIT!
